Wil Rewrite Production Bible

CURRENT WORKING SOURCE - WIL REWRITE / ENDING IN PROGRESS

10 shoot days / August 17-28, 2026

Prepared July 16, 2026

Source and use

This production bible is built entirely from Wil's current SCR-004 rewrite. Formatted pages 1-67 are scheduled; rough ending notes on pages 68-72 still require finished scenes.

Source	Body	Rough notes	Units	Shoot dates
SCR-004	pp. 1-67	pp. 68-72	71	Aug 17-28 / 10 days

Ten-day shooting schedule

Week one shoots August 17-21. August 22-23 is protected off. Week two shoots August 24-28. Page loads are first-pass estimates pending AD verification.

Working story spine

1. Jessica teaches Grace claim staking at Sam's house, establishing the work and the Rule family.
2. Pete and Sam finish a staking job while Pete rejects Sam's help and authority.
3. Pete passes the broken FrenchMobile without helping; Sam later stops and brings Pierre and Jacques home.
4. Tillies introduces Billy, Chris, Susie, Vincent and Frederick, and Pete bets Frederick that he will win the large tender.
5. James Pitt gives Pete a difficult qualifying job; Frederick cuts the rate and finder terms and dares Pete to fail.
6. Pete forms JenLo Mining but discovers that almost nobody will work for him.
7. Sam assembles the practical crew and camp support Pete cannot assemble himself.
8. The convoy reaches the claim camp; language, personality and leadership conflicts begin immediately.
9. Work pairs spread through the field, river, bad bush and moraine while Pete's leadership and grief are tested.

10. Sabotage and worsening weather force the group to become a real team.
11. Pete accepts the family and community around him, completes the staking job and enters the final race.
12. The ending must resolve the claim-jumping mechanics, gold discovery, Frederick's control, Pete's family wound and JenLo's future.

Revised character guide

Pete Rule / Lead

Just under thirty. Experienced staker, angry and self-isolating. He sleeps in his truck, resists Sam's authority and believes winning the tender can create an independent future. His grief centres on Jen and the life they did not get to build.

Sam Rule / Lead

Pete and Jessica's father, roughly forty years older than Pete. Patient, connected and practical. He quietly assembles the people and support Pete cannot assemble alone.

Jessica Rule / Principal

Pete's sister, Grace's mother and a bilingual English/French bridge. She manages food and camp logistics while grounding Pete emotionally.

Billy / Principal

Pete's friend and field partner. Uses humour to reach Pete, then directly challenges Pete's avoidance and grief.

Chris / Principal

Pete's crony and crew member. Funny but increasingly hostile toward Pierre and possessive toward Susie. His role in the unfinished misconduct and sabotage material is unresolved.

Susie / Principal

Tillies server and Jessica's friend. Joins the field crew, works effectively with Sam and becomes central to the later interpersonal conflict.

Gabe / Principal

Indigenous staker, a little older than Pete, highly capable and direct. This draft does not frame him as an elder. Language, relatives, music and cultural material require Indigenous review and consent.

Pierre Lalonde / Principal

Younger member of the Francophone father-son pair. Joins after Sam helps repair the FrenchMobile and develops a connection with Susie.

Jacques Lalonde / Principal

Pierre's father. Older Francophone traveller, practical comic presence and eventual field partner with Gabe.

Grace / Supporting / minor

Jessica's nine-year-old daughter and Pete's niece. Appears in the opening, learns safe staking basics and remains home during the claim-camp work.

James Pitt / Supporting

Founding Pitt Mining director, old friend of the Rule family and the person who permits Pete to attempt the qualifying job.

Frederick Mitchell / Supporting antagonist

Pitt's new exploration manager. Uses rates, terms and the tender process to control Pete.

Vincent Wisniewsky / Supporting antagonist

The Weasel. Rival and suspected claim jumper. The rough ending notes identify him as an active saboteur, but the reveal and finale mechanics are unfinished.

Cecile / Supporting

Pitt Mining clerk and likely part of the final-office comic payoff.

Wil (mechanic) / Day player

Pitt Mining mechanic who refuses Pete access to the garage because corporate management now watches shop use.

Joe / Phone voice / day player

Phone voice who immediately declines Pete's offer to join his new crew.

Marge / Off-screen day player

Pitt Mining office worker asked to print the missing tender form.

Omer / Phone voice / day player

Phone voice who refuses Pete's crew offer because Pete insulted his wife.

Frank (phone voice) / Phone voice / day player

Phone voice who emphatically refuses Pete's crew offer. This is a scripted role name; the person's identity is not assigned.

Safety, labour, culture and clearance gates

- Grace is a minor and handles a hatchet in the opening: guardian, hours, safe prop/tool design and blocking require approval.
- Chainsaw-assisted truck starts, practical vehicles, towing, roadside stops and convoy work require transport and safety plans.
- Axes, chainsaws, knives, wire cutters and claim tools require controlled tools, trained operators and approved shot design.
- River, moraine, dense bush, rain, darkness, insects and remote camp work require an AD/safety review and weather cover.
- Unwanted touching, a potential fight, tire slashing, tent damage and a proposed snare gag remain unapproved rough-note material.
- French dialogue needs a fluent language pass; culture-based jokes and slurs require an intentional tone review with performers.
- Gabe's Ojibway dialogue, relatives, proposed music and cultural role require Indigenous consultation and consent.
- Named songs, radio material, montage playback and proposed campfire songs need clearance or replacement choices.
- Chain of title remains unresolved. Development may continue, but production and exploitation remain held pending counsel-reviewed rights agreements.

Next production order

1. Receive Wil's complete dated PDF and register it as a new version if any bytes change.
2. Finish and format numbered pages 68-72 and the remaining ending, then add the missing scenes to the ten-day plan.
3. Resolve the open mining-process questions and the legal/practical claim-jumping race.
4. Have the AD verify the first-pass page loads, location grouping, company moves and cast availability for all ten days.
5. Complete cast, physical-production, continuity and AD/safety review lanes.
6. Reprice the budget against the ten-day August 17-28 schedule.
7. Regenerate onboarding assignments and call-sheet drafts only from Wil-version scene keys.

Scene cards

All 71 units are assigned to the working ten-day schedule. Breakdown details and page eighths still require department sign-off.

U001 | EXT. SAM'S HOUSE - DAY

Jessica teaches nine-year-old Grace safe claim-staking basics in the yard, warns her about bush hazards, and takes her inside as the title appears.
